Owner of Record: Susanne Dutt-Roth

EVA Status: Negative

Breeder's Terms: Frozen Semen
Only \$900/Dose

Origin: Rheirattack's athletic ability is inherited from a superb competitive pedigree. His sire, the licensed Westphalian stallion, Rhodos, was listed for the Canadian Dressage Team. His grand sire, Roderich, produced the German high jump record holder, and his great grand sire is the "R" line foundation stallion Ramzes who produced such legends as Rubinstein, Romadour II, Ramiro, and Rembrandt. His Dam, Atrix Aquavit, produced 7 dressage horses including two that competed at Grand Prix. Her lineage extends through Aktuell to the Hannoverian "A" line foundation stallion, Absatz. It is rare today to find a stallion whose pedigree is only 3 generations removed from both of these breeding legends.

Performance Record: Rheirattack is a regal Grand Prix stallion blessed with a world class temperament scoring 66% from FEI judges. Based upon his sport performance he has been selected to the 2012 Dressage Canada Grand Prix list. He is the first Canadian bred dressage stallion, based upon International competitive performance, to be approved by the Oldenburg, Westphalian, and Rhineland Verbands. He was recognized as the CSHA's Dressage Stallion of the Year for 2002, 2004, 2005, 2006, and 2007. Rheirattack will continue training and competing at the Grand Prix level in Canada and the United States in 2012. Due to his active competition schedule, breeding is by frozen semen only. For more information about breeding to Rheirattack, and other imported European stallions please go to our website.

Breeding/Progeny Record: In addition to his sport performance excellence, as a sire, Rheirattack has continually produced very athletic, conformationally correct, and well tempered foals. To date, 75% of his offspring have received Premium status at their inspections. A 2 year old stallion by him was the Champion Canadian Bred Horse at the 2009 Royal Winter Fair in Toronto.
