**EXAM**

Mentation/ Behavior	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _generally well behaved; nervous when a large trash truck drove by, but this would be unsettling to most horses - very tall and loud and hitting the trees, causing branches to rattle_
Eyes	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _corneas and adnexa appear within normal limits; pupils are symmetrical; no ocular discharge; full dilated ophthalmic examination was not performed_
Ears	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> __
Mouth/Teeth	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _adult dentition is erupting; some damage to one deciduous incisor but this will likely resolve when this baby tooth is shed; wolf teeth appear to have been extracted previously; sharp dental points forming on cheek teeth_
Lymph Nodes/ Glands	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> __
Skin/Coat	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> __

Cardiovascular	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _no murmur or arrhythmia ausculted_
Respiratory	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _normal respiratory rate and effort; normal lung sounds_
Abdomen	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _normal gut sounds; passing normal stool_
Musculoskeletal	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _shod on all four hooves; no gross visible or palpable abnormalities of any leg; briefly observed the horse in motion while on the lead (walking and trotting) and to either direction on the longe line; no visible lameness; flexions not performed_
Genitourinary	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _external sheath normal; did not exteriorize nor visualize penis_
Neurologic System	N/E: <input type="checkbox"/>	Normal: <input checked="" type="checkbox"/>	Abnormal: <input type="checkbox"/> _no gross deficits; full neuro exam not performed_

All body systems otherwise normal:

**ASSESSMENT**

Diagnosis: Healthy animal
