Walking on hard surface

Straight line	<u>normal</u> / ...
Small circle left	<u>normal</u> / ...
Small circle right	<u>normal</u> / ...

Trotting on hard surface

Straight line	<u>normal</u> / ...
Small circle left	<u>normal</u> / ...
Small circle right	<u>normal</u> / ...

Trotting on soft surface

Small circle left	<u>normal</u> / ...
Small circle right	<u>normal</u> / ...

Cantering on soft surface

Small circle left	<u>normal</u> / ...
Small circle right	<u>normal</u> / ...

Flexion tests (not for foals)

LF: forced flexion: not sensitive / sensitive	Trotting away: not lame / lame
RF: forced flexion: not sensitive / sensitive	Trotting away: not lame / lame
LH: forced flexion: not sensitive / sensitive	Trotting away: not lame / lame
RH: forced flexion: not sensitive / sensitive	Trotting away: not lame / lame

Spavin tests

LH: forced flexion: not sensitive / sensitive	Trotting away: not lame / lame
RH: forced flexion: not sensitive / sensitive	Trotting away: not lame / lame

Inspection of stifle: normal / ...

Other findings and remarks: no / yes...

During the examination there were indications of vices: no / yes...

After the examination blood samples were / were not taken for investigation of banned substances.

Clinical Examination Conclusion:

No abnormal findings / Abnormal findings (see examination protocol): ...

The horse receives a satisfactory / normal medical risk / increased medical risk

RADIOLOGICAL EXAMINATION

(Not for foals / Not executed)

Navicular DP RF:	No significant abnormalities / ...
Navicular DP LF:	No significant abnormalities / ...
Navicular LM RF:	No significant abnormalities / ...
Navicular LM LF:	No significant abnormalities / ...
Fetlock LM RF:	No significant abnormalities / ...
Fetlock LM LF:	No significant abnormalities / ...
Fetlock LM RH:	No significant abnormalities / ...
Fetlock LM LH:	No significant abnormalities / ...
Tarsus LM + APLO RH:	No significant abnormalities / ...
Tarsus LM + APLO LH:	No significant abnormalities / ...
Tarsus APLO RH:	No significant abnormalities / ...
Tarsus APLO LH:	No significant abnormalities / ...
Tarsus DP RH:	No significant abnormalities / ...
Tarsus DP LH:	No significant abnormalities / ...
Stifle LM RH:	No significant abnormalities / ...
Stifle LM LH:	No significant abnormalities / ...
Stifle DP RH:	No significant abnormalities / ...
Stifle DP LH:	No significant abnormalities / ...
Back:	No significant abnormalities / ...
Neck:	No significant abnormalities / ...

Other radiological examinations: no / yes: ...

Radiological conclusion:

The horse receives a normal medical risk / to some degree increased medical risk / increased medical risk
